

[Enjoy business benefits]

- 1 All-in-one messaging app, conferencing solution, and phone system
- 2 Flexible and secure solution for agile and connected teams
- 3 Unlimited room-based concept keeps interactions in a single place
- 4 Meet on any device - mobile, desktop, and room system
- 5 App-centric solution provides integrated, delightful experience

One solution for all team communications

Cisco Spark is a fully integrated collaboration solution that enables users to message, meet, or call anyone, anywhere, anytime. Spark provides a unified and intuitive experience that enables teams to work faster.

You are never more than one click from initiating and receiving voice and video calls, joining meetings, scheduling meetings, and more, all with the historical context of team and one-to-one interactions including shared files and persistent messages.

Enjoy a single, easy-to-use solution for team messaging, virtual meetings, and phone calls from anywhere, on any device

Less email. Better teamwork. Cisco Spark provided by Arkadin is your all-in-one solution, accessible from anywhere on any device

One complete solution

- Message, meet, and call anyone, anywhere, anytime, all from one simple interface
- Integrated experience using the app-centric Cisco Spark
- Start collaborating with anyone by simply adding their name or email address
- Work together in unlimited virtual rooms that you can search and sort

Streamlined and easy to use

- Instant 1:1 or team interactions in a single click
- Unmatched mobile-first experience
- Send messages, share files and video, and collaborate quickly as a team
- With a swipe, move a video call from a room system to a mobile device

Secure and always available

- Hosted in the secure and reliable Cisco Cloud
- End-to-end encryption keeps content safe
- Single Sign-On lets you access what you need faster
- Solution upgrades and maintenance at no additional cost
- 99.999% uptime that reduces total cost of ownership

“Cisco collaboration tools are helping us enhance and redirect time back into patient care. When we hear from our users that technology has made their lives easier, we know we’ve succeeded.”

Julie Flaschenriem
